

I just want to say that I believe we, the people, should have the right to the privacy of our own homes. If someone comes to my door, I can choose to answer my door or not, let them in or not; but not so with a telephone call, they are instantly in my home, whether I want them there or not. Please uphold the Wisconsin State NO CALL LIST. It is an invasion of my privacy to have unwanted, unsolicited phone calls coming into my home. If these companies can acquire and use our cell phone numbers, it is even more of an invasion than land-line phones, as they are then causing an immediate cost to us for something unwanted. I work all day and I totally resent these intruders breaking into my off-time hours. Let these companies advertise in magazine, newspapers, radio and television. I don't understand why the companies should have more rights than the common people. Again, please uphold our NO CALL LIST.
